

## OBJECTIVES OF THE CONFERENCE

### BRINGING PEOPLE TO SHARE KNOWLEDGE

From 2010, CIGOS (Conférence Internationale de Géotechnique - Ouvrages - Structures) has become a brand of French-Vietnamese exchanges in particular and international scientific exchange in general. Each CIGOS conference is an excellent opportunity for institutions, enterprises and universities to meet each other's and exchange ideas. It aims to promote beneficial economic partnership and technology exchanges between French and Vietnamese enterprises as well as the co-operation in higher education and research. Following the success of the last two CIGOS conferences (in 2010 and 2013), the international conference CIGOS 2015 is going to be held in ENS Cachan, in the South of Paris, France.

Innovation is a cornerstone of any industry including the construction. The next level of expertise is what drives our industry forward. To this end, the main scientific themes of CIGOS 2015 will focus on innovations in construction.

## THEMES

The conference emphasizes on recent innovations in various disciplines of construction engineering as listed below:

- ✓ **Advanced modeling of structures**
- ✓ **Materials for construction**
- ✓ **Innovative designs, projects and methods in construction**
- ✓ **Geotechnics for environment and energy**

## REGISTRATION

Participants must register and pay the registration fee and completing the registration form. These fees allow delegates to participate in all activities (including lunch, coffee break, and banquet) throughout the conference. Payment must be made in advance by attaching the registration form (downloadable from the website of the conference: <http://www.cigos.org>).

A certificate of attendance will be issued to all participants upon registration. The registration fee will be refunded upon request to the authors whose articles would be not accepted by the scientific committee.

You must register to attend the conference.

## ORGANIZERS

**The Association of Civil Engineering, Mechanics and Materials (GCMM)** is an association of scientific and technical nature. Its objective is to create a place of encounter and exchange between its members, to promote the image of the Vietnamese community in the fields of Civil, Mechanical and Materials Engineering, and to contribute to Vietnam's development and bilateral relationship between France and Vietnam. - <http://www.gcmm.fr>

**The Association of Vietnamese Scientists and Experts (AVSE)** is founded in May 2011. It aims at providing a forum for scientists and experts to exchange ideas and discuss the future of their professions, as well as at contributing actively to the development of Vietnam. - <http://www.a-vse.org>

**The Ecole Normale Supérieure de Cachan (ENS Cachan)** is a prestigious public institution of higher education and research founded in 1912. With its multidisciplinary departments and their associated research laboratories, the ENS Cachan provides its students with a high-level cultural and scientific training. - <http://www.ens-cachan.fr>

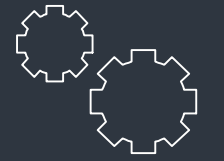

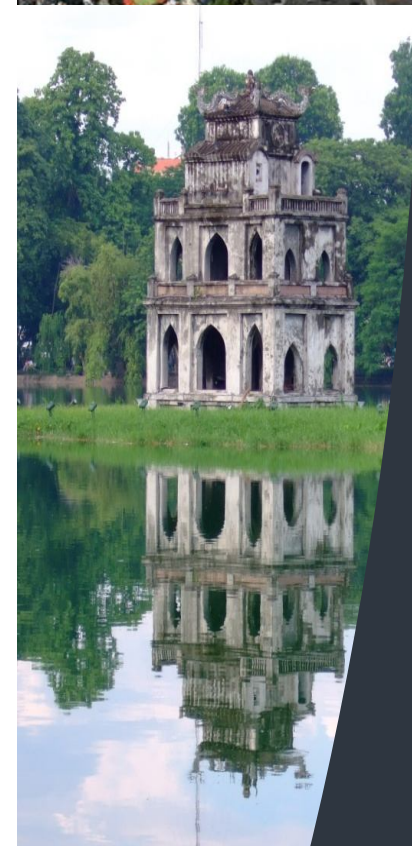

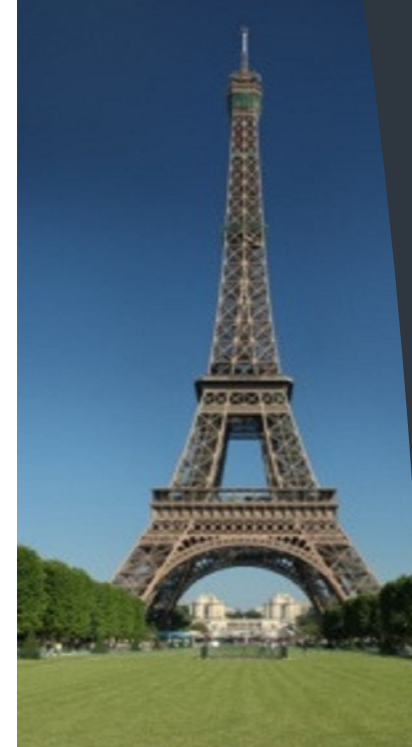

**The Ecole Spéciale des Travaux Publics (ESTP)** is one of the French "Grandes Ecoles", which are the leading institutions for French engineering and management education. The ESTP Paris is the French institution that trains the largest number of students for the construction industry in all fields: design, construction, planning & development, project & facilities management, sustainable buildings & infrastructures, rehabilitation, maintenance, new materials and energy efficiency. - <http://www.estp.fr>

**The Ecole Centrale Paris (ECP)** is one of the oldest and most prestigious engineering schools in France founded in 1829. The educational program is based upon an integrated multidisciplinary approach that harmoniously blends basic scientific and technical education, technological education, and a solid initiation to the economic, social and human realities of industry. - <http://www.ecp.fr>

## CALL FOR PAPERS

Original research papers on theoretical and experimental works and case studies on the above-mentioned areas and related topics are invited from post graduate students, research scholars, academicians, practicing engineers from industries, R&D personnel, scientists, etc.

The prospective authors should submit the abstract (from 250 to 500 words) in English or French, in A4 size paper in the prescribed format given in the website, electronically through the conference e-mail: [secretariat@cigos.org](mailto:secretariat@cigos.org). It is mandatory that at least one author shall register for each paper.

## IMPORTANT DATES

Call for paper:

**May 28<sup>th</sup> 2014**

Deadline for abstract submission:

**October 1<sup>st</sup> 2014**

Notification of Acceptance:

**November 1<sup>st</sup> 2014**

Submission of final paper:

**January 2<sup>nd</sup> 2015**

Conference dates:

**May 11<sup>th</sup> – 12<sup>th</sup> 2015**
